TECHNICAL SKILLS

Languages: C++, JavaScript

Development: HTML, CSS, JavaScript, React, NextJS, Tailwind CSS

Development Tools: VScode, Git, Github

PROJECTS

JobHub | React, Firebase, Tailwind CSS

- Developed a responsive and feature-rich job board application using React, Firebase, and Tailwind CSS, integrating user authentication, database management, and hosting for a seamless user experience.
- Seamless user authentication system, allowing job seekers to create accounts, log in, and manage their job applications.
- Intuitive job search functionality with filters for job title, location, and job type.

Resume-Builder | React, Tailwind CSS

- Developed a responsive and ATS-friendly resume builder using React, Tailwind CSS, and local storage to provide users with a seamless resume creation experience.
- Ability to add, edit, and delete resume sections such as work experience, education, skills, and projects.
- Automatic formatting and styling of the resume based on the Tailwind CSS framework.
- Responsive design that ensures the resume looks great on various devices and screen sizes.

Photo-Graphy Portfolio | HTML, CSS, JavaScript

- Designed and developed a responsive and visually appealing photography portfolio website using HTML, CSS, and JavaScript.
- Crafted a clean and modern user interface to showcase a collection of professional-quality photographs.
- Developed a responsive layout that adapts seamlessly to various devices and screen sizes, ensuring an optimal viewing experience.
